We produced a single Platform covering both Reactivate and Your first EURES job initiatives to offer a more user-friendly solution to our beneficiaries, using this dual system, in fact, allows both employers and jobseekers to register only once.

- Employers can upload vacancies targeting all workers, whatever their age.
- Jobseekers already registered in YfEj, when turning 36, can automatically benefit from Reactivate targeted services using the same registration data and CV.

If you are a **jobseeker** already registered on YfEj Platform, you can access to Reactivate services without going through a new registration process. [Click here](#) to login using the same credentials or [here](#) if you forgot you password.

If you are an **employer** already registered on YfEj Platform, you can access to Reactivate services without going through a new registration process. You can use a single vacancy opened to jobseekers under and over 35 years old. [Click here](#) to login using the same credentials or [here](#) if you forgot you password.

The EU is funding different Reactivate projects. To have a full view of the current initiatives, please check EURES webpages for [jobseekers](#) or [employers](#).
